01 LOTION PUMPS

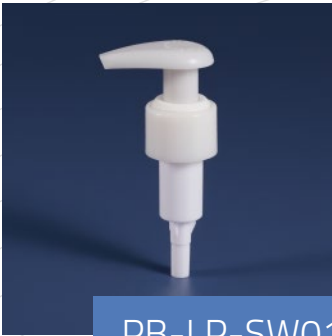

We produce a range of designs for our lotion pumps. It is possible to change the size of the nozzle, the dose quantity and color of the products.

The models can be adjusted to suit your specifications based on the different types of products you intend to package, such as sanitizers, antibacterial foams, disinfectant, soaps, hand creams, body lotions, body wash and many hair products.

LOTION PUMPS /

SWITCH PUMPS

PB-LP-SW014

PB-LP-SW015

PB-LP-SW016

LOTION PUMPS /

CLIP-LOCK PUMPS

PB-LP-CL002

PB-LP-CL009

PB-LP-CL010

The clip-lock dispenser has a detachable plastic clip on the neck of the pump. The clip prevents any unintended dispensing of the content of the plastic bottles.

One advantage of this is that it makes it more difficult for children to accidentally spill the liquid on themselves while the clip is attached. For travelers, it is a good way to prevent lotions, personal care products, or cleaning agents from spilling in their bags or luggage.

02 FOAM PUMPS

PRODUCT N.º	SPECIFICATIONS	MATERIAL	DISCHARGE	COLOR
PB-FO	30/410	New PP w/ SUS 304 H spring inside	0.4 ml/t	As Per Order

FOAM PUMPS

Our foam pumps work perfectly as packaging for hand sanitizers, disinfectants, body and hair products. It is easy to actuate.
